RODRIGO VALDIVIA

Fullstack Engineer (JS) Rosario, Santa Fe, Argentina | +54 9 341 5010421 rodrigo1995val2@gmail.com | Portfolio | LinkedIn | GitHub

SUMMARY

I am a Fullstack Developer with 4 years of experience, driven by the challenge of building products that actually work for people. My journey has taken me from lead roles in backend architecture for E-commerce to crafting seamless mobile and web experiences. I specialize in the TypeScript ecosystem—specifically NestJS and React—and I enjoy the balance of working independently while staying in sync with a great team. Beyond the code, I'm a C1 English speaker who values clear communication and constant learning.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3.

- **Frontend:** React.js, Next.js, React Native (Expo), Angular, Redux, Tailwind CSS.

- **Backend:** Node.js, Express.js, Nest.js, Python.

- **Cloud & DevOps: AWS** (EC2, S3, Elastic Beanstalk, CloudWatch), Docker, Git, Bitbucket, CI/CD.

- **Databases:** PostgreSQL, MySQL, MongoDB, Sequelize, TypeORM.

- **Tools & AI:** Jira, Scrum, **OpenAI API**, **Claude Code**, GitHub Copilot.

PROFESSIONAL EXPERIENCE

EUDAIMONIA SOFTWARE SOLUTIONS | Full Stack Developer *July 2022 – Present | Remote*

- **Backend Lead (Delivery Platform):** Spearheaded the architectural design and backend development for a delivery/dine-in platform. Used **NestJS** and TypeScript to build a scalable engine capable of handling real-time orders and logistics.

- **Mobile Development (Kawasaki & Zanella):** Developed and deployed the official mobile applications for **Zanella** and **Kawasaki Argentina** using **React Native**, ensuring a high-performance and fluid user experience on both iOS and Android.

- **AI Project (Delfi AI):** Work development of **Delfi AI**, an intelligent chat system based on AI agents (OpenAI), orchestrating Natural Language Processing logic and automation workflows.

- **Healthcare Platform (Sanoviv):** Built a fullstack platform for the **Sanoviv** medical clinic, allowing patients to securely manage and view their medical studies and records.

- **Collaboration:** Active participant in Agile sprints, working closely with UX/UI and QA teams to ensure the delivery of high-quality code aligned with business goals.

ALKEMY | Full Stack Developer (Acceleration Program) *April 2022 – June 2022 | Remote*

- Developed a responsive web application for the NGO "SOMOS MAS" within a Scrum simulation.

- Architected the backend using **Node.js, Express, and MySQL (Sequelize)** for RESTful API management.

- Built the frontend using **React.js and Redux**, focusing on efficient state management.

SERTEX | Front End Developer *July 2021 – May 2022 | Rosario, Argentina*

- Spearheaded the development of the company's main landing page and back-office system using **React.js** and JavaScript.

- Managed the codebase and version control strategies via GitHub, ensuring clean commit history and code reviews.

- Optimized web interfaces for responsiveness, serving both client and internal platform needs.

URBAN ROOMIE | Front End Developer *January 2021 – June 2021 | Remote*

- Contributed to web development and UI/UX improvements using HTML, CSS, JavaScript, and React.js.

- Collaborated in an agile team environment using Git for version control.

EDUCATION

Information Systems Engineering Universidad de la Marina Mercante (UdeMM)

LANGUAGES & INTERESTS

- **Languages:** Spanish (Native), **English (C1 - Advanced)**.

- **Hobbies:** Hiking & Bouldering, Calisthenics, and Photography.
